

Cheerleader Award Recipients

Natalie Writes:

I am one of the cheerleaders on the Badgers Squad who has been on the squad for six years and you generously donated a \$100.00 savings bond and a beautiful trophy to me and three other lucky girls. It was a really nice surprise and I appreciate it so much, thank you. Though I did not know your daughter I was sad when I heard about her accident and I am so honored to be receiving something in her memory.

Cheerleading has been a fun part of my life, though it has been a lot of work it pays off at the end during competition. When we find out if we performed good, I get a big rush of excitement inside me from all those months of hard work finally paying off. Then when I was handed the wonderful donations from you it felt like six years of working paying off and it felt really good.

This was a nice and really generous present and will be appreciated for a long time. The trophy is sitting right on my bureau and the letter is framed and hung up in my room. It is really something to be proud of and I am.

Erica Writes:

I just wanted to thank you for your generosity and acknowledgement for my Cheerleading experience. Cheering for the Badgers has been a lot of fun and I hope to move on to high school cheerleading. I bet Jackie would have been a great cheerleader.

From Kayla:

I would just like to thank you for my award and savings bond. That is so nice of you. Thanks so much, this has made cheerleading worth while.

Noelle Says:

Thank you so much for the recognition. Cheerleading has been a big part of my life since I tried out in second grade.
